CV Website

<http://marc.pelteret.co.za/>

I'm an experienced full-stack Web developer with strong analytical skills and a broad range of experience, education and knowledge in business and information technology. I'm also a first-rate organiser with excellent communication skills. I am resourceful and able to work at a fine level of technical detail, but I'm also a creative thinker and enjoy thinking at an abstract, "blue sky" level. I always endeavour to focus the end-user or customer and, because I value good design, try to produce work that balances form and function.

Technologies: PHP, JavaScript, HTML, CSS, MySQL, Apache; MVC: Yii, CodeIgniter; WordPress

Skills: Business analysis; data analysis, modelling, and reporting; process modelling; graphic design (Affinity and Adobe suites)

Work Experience

Self-employed at *Genesis Computer Solutions*

Period: Jun. 2013 – current / **Job Type:** Full-time

Major work:

- BackaBuddy [<https://www.backabuddy.co.za/>] (current): contracted as a Senior Software Development Engineer (LAMP Stack). Responsible for development (optimisation, bug fixing, and enhancements) of the entire platform, as well as management of the site infrastructure. Made optimisations that significantly improved the performance of the site.
- Reflective Learning [<https://www.reflectivelearning.co.za/>]: helped the team gain focus and traction in development of version 2 of the system. I took the approach of doing whatever would help and so provided business analysis expertise (particularly around requirements analysis and system design), did development (working in NodeJS and MongoDB), re-drew about 480 images in vector format (in Adobe Illustrator), planned and assisted with data capture, proofread and checked data, and developed tools to assist in preparing and formatting data.
- Spill Doctor [<http://www.spilldoctor.co.za/>]: maintenance and enhancements to a custom CRM system built in PHP, MySQL and JQuery.
- Ezemvelo Nature Reserve website [<http://www.ezemvelo.co.za/>]: implementation and customisation of WordPress theme.
- Pelteret Trust: overhaul of VBA macros in Excel spreadsheet used for share tracking and management. Included analysis of requirements and programming (enhancements and bug fixes).
- One Photography website: implementation of WordPress theme (site has since been shut down by owner).
- Design and development of the Genesis Sports Club Administration system.

Business Analyst at *Analyze Consulting Services*

Period: Aug. 2011 – Jun. 2013 / **Job Type:** Full-time

Worked on-site at two clients:

RCS — Loans Division (19 months)

- Process mapping and optimisation.
- Business requirements gathering.
- Some interface design for system used to capture new loan applications.
- Vendor liaison.
- Platform migration project – handled work streams that covered Campaign Management, Insurance, Marketing, Sales, New Business, Telemarketing, Fraud, Product and Risk departments.

Old Mutual — Group Forensic Services (2 months)

- Process mapping and optimisation – finance administration, investigation and reporting processes.

Self-employed at *Genesis Computer Solutions*

Period: Sept. 2009 – Aug. 2011 / **Job Type:** Full-time

Major work:

- Dr Denise Kotzé Inc.: consulting on management, legal and IT issues. Wrote a custom Web application for the daily processing of bank statements and managing EFTs efficiently.
- Phambili ngeThemba: design (including requirements gathering), programming and implementation of a database-driven management Web application.
- Western Province Hockey Union and Constantiaberg Hockey Club: design, programming and implementation of custom websites.

Analyst Developer at *Open Box Software*

Period: Mar. 2008 – Aug. 2009 / **Job Type:** Full-time

Major work:

- Design and development of custom technical solutions for offshore clients using primarily Microsoft technologies.
- Sole developer of custom management dashboard application. I was also a major author of the functional specification.
- Participated in a select team responsible for writing articles for RealcommEDGE Magazine (focuses on commercial real estate IT).

Receptionist at *Dr Denise Kotzé Inc.*

Period: 2001 – 2006 / **Job Type:** Part-time

- Secretarial duties.
- Dealing with account payments.
- Entering confidential patient information into Health Focus.

Sole Proprietor at *Genesis Computer Solutions*

Period: 1998 – current / **Job Type:** Part-time & Full-time

Since high school I have provided a variety of IT technical services. For the most part, I've done so on a part-time basis, but twice I've reverted to doing so full-time.

Services include:

- Service and maintenance of home and work-company computer systems.
- Software and Web development and design.

Education

National Certificate: Business Analysis

Faculty Training Institute

2016

An upgraded version of the BA Diploma, this is a South African Qualifications Authority (SAQA)-registered qualification.

Bachelor of Commerce with Honours (Information Systems)

University of Cape Town

2011 - 2015

Grade: First Class

I did the Enterprise Systems and Business Process Management course in 2011. My second year research project was on the *Information Privacy Strategies of South African Financial Services Organisations*.

Diploma in Business Analysis

Faculty Training Institute

2011

Grade: Pass with Merit

My assignments were selected to be used as examples for future classes.

Bachelor of Business Science with Honours (Computer Science)

University of Cape Town

2002 - 2007

Grade: Second Class, Division Two (First Class for Computer Science)

Subjects included computer science, economics, marketing, accounting, finance, business law and project management.

I was the class representative for Computer Science Honours in 2007. I was also on the Dean's Merit List in 2007.

I was part of Varsity Newspaper from 2002 to 2005 and served in a number of positions, including DTP Editor, Technical Manager, Web Site Editor and Operations Manager.

Matric

Rondebosch Boys' High School

1996 - 2000

Continuing Education

CopyrightX

Harvard Law School

2017

CopyrightX is a twelve-week course that explores the current law of copyright; the impact of that law on art, entertainment, and industry; and the ongoing debates concerning how the law should be reformed. I attended CopyrightX: UCT, which is run by the UCT Law Department's Intellectual Property Unit. The details of both United States and South African copyright law were covered. I passed the exam and received a certificate of completion [<https://www2.harvardx.harvard.edu/certificates/copyrightx17/9fcfd82a70/certificate.pdf>].

I compiled transcripts of the lecture videos, together with images, diagrams and reference text, in a document that can be found here [/copyrightx/].

Protection of Personal Information (PoPI) Act

University of Cape Town

2014

A two-day seminar on the PoPI Act.

Key Competencies & Skills

- Able to work at detail and abstract levels
 - Analytical thinking
 - Creative thinking
 - Excellent communication
 - Leadership
 - Resourcefulness
 - Thoroughness
-
- Business analysis
 - Data analysis, modelling and reporting
 - Process modelling
 - Software development
 - Software documentation

Technologies

- WAMP/LAMP – Windows/Linux, Apache, MySQL, PHP (WordPress, Yii MVC framework)
- Web: HTML, CSS, JavaScript
- NodeJS, MongoDB
- Microsoft .NET (C#, VB.NET, LINQ), IIS, SQL Server
- Sage Pastel Xpress Start-Up (accounting software)
- Health Focus (medical practice management software)
- Microsoft Office (Word, Excel, PowerPoint, Visio, Project, VBA)
- Graphics and DTP applications (QuarkXPress; Adobe Photoshop, Illustrator and InDesign)

Positions of Responsibility

Chairman

Pinelands Hockey Club

2012 / 2019 – 2020

- I wrote a Roles & Responsibilities document describing all the club portfolios, the first time this had been done since the 1980s (2012).
- Took on the additional role of Match Secretary (2012 and 2019).

Vice Men's Club Captain

Pinelands Tennis Club

2014

Treasurer

Pinelands Hockey Club

2009 – 2011 and 2014

- Implemented a new website, which included an online registration system to replace the paper form and manual membership list compilation.
- Achieved a low bad debtor rate as treasurer: 6.5% (2009), 2.2% (2010), 0.8% (2011), 2.8% (2014). The club has over 200 members each season.
- As chairman, I wrote a Roles & Responsibilities document describing all the club portfolios, the first time this had been done since the 1980s.
- I took on additional responsibilities (when positions were not filled), including House & Grounds Convenor (2009 and 2010) and Match Secretary (2014).

Captain of winter, summer and indoor hockey teams

Pinelands Hockey Club

2009 – 2011

Class Representative for Computer Science Honours

University of Cape Town

2007

DTP Editor / Technical Manager / Website Editor / Operations Manager

Varsity Newspaper (UCT's student newspaper)

2002 / 2003 / 2004 / 2005

Community Involvement

Pinelands Hockey Club member

2001 —

Winter, summer and indoor teams

Pinelands Tennis Club member

2011 – 2016

Phambili ngeThemba volunteer

2009 – 2011

Installed and maintained the computers and network

Awards / Achievements

- **Donald Edwards Memorial Trophy for Meritorious Service to the Club** (2011, 2014 and 2019)
Pinelands Hockey Club
- **Stanbridge Trophy**, for service to the club (2012 and 2019)
Pinelands Hockey Club
- **Huskisson Club Administrator of the Year** (2009, 2010 and 2019)
Pinelands Hockey Club
- **Keswick Prize for Lucidity** (2015) (UCT News Article [<http://www.uct.ac.za/dailynews/?id=9681>])
University of Cape Town

Awarded annually by Sir Chips Keswick to a third- or fourth-year student in any technical field for the most lucid and jargon-free essay on that subject.

- **Diploma in Business Analysis Business Case and Functional Requirements Specification assignments selected to be used as examples for future delegates** (2012)
Faculty Training Institute
- **Dean's Merit List** (2007)
University of Cape Town
- **Service Tie**, in recognition of services to the school (2000)
Rondebosch Boys' High School

Award in recognition of services to the school, particularly in helping to set up and manage the DTP of the annual school magazine for the first time in its history that it was done in-house.

Organizational Information Privacy Strategy and the Impact of the PoPI Act

Marc Pelteret and Jacques Ophoff

Proceedings of the 2017 Information Security for South Africa Conference
2017

In today's knowledge-centric society, personal information is one of the key resources of most businesses. Because of this, maintaining the privacy of personal information has become an important topic. Many countries have enacted, or are in the process of enacting, legislation to govern this. South Africa is addressing privacy concerns through the Protection of Personal Information (PoPI) Act, which imposes heavy penalties for non-compliance. This paper examines current organizational information privacy strategies and what impact the PoPI Act is making. Using a case study approach, data was collected from five organizations in the South African financial services industry. The findings offer insight into the complexities of forming and executing a privacy strategy, as well as the difficulties around complying with legislation. The PoPI Act has influenced the organizations to varying degrees, with some simply assessing its impacts and preparing to implement changes at a later point, while others have been making changes for many years. One of the key challenges that was highlighted is that it is based on principles and therefore open to interpretation. However, for most of the organizations it appears to offer benefits, such as the opportunity to bring more international business to South Africa.

A Review of Information Privacy and Its Importance to Consumers and Organisations

Marc Pelteret and Jacques Ophoff

Informing Science: The International Journal of an Emerging Transdiscipline (InformingSciJ)
Volume 19 [<http://www.informingscience.org/Journals/InformingSciJ/Articles?Volume=19-2016>], pages
277 - 301
2016

The privacy of personal information is an important area of focus in today's electronic world, where information can so easily be captured, stored and shared. In recent years it has regularly featured as a topic in news media and has become the target of legislation around the world. Multidisciplinary privacy research has been conducted for decades, yet privacy remains a complex subject that still provides fertile ground for further investigation.

This article provides a narrative overview of the nature of information privacy, describing the complexities and challenges that consumers and organizations face when making decisions about it, in order to demonstrate its importance to both groups. Based on this work, we present a transdisciplinary view of information privacy research linking the consumer and organization. It illustrates areas of concern for consumers and organizations together with the factors that influence the decisions they make about information privacy. By providing such a view we hope to encourage further cross-disciplinary research into this highly pertinent area.

Software Projects

CPTDEV

Website [<http://www.cptdev.co.za>]

This site provides information on the software development community of Cape Town, listing all the technical meet-up groups and societies, work spaces and conferences that I am aware of. It also lists the events of these groups if they are on Meetup.com and their events are publicly visible. The aim is to help advertise the groups in the hope that they and the technical community in Cape Town will grow.

The site was created with PHP, MySQL and Yii.

Genesis Sports Club Administration system

Demo Site [<http://marc.pelteret.co.za/demos/gsca>]

This is a member management system designed for South African hockey clubs, written in PHP using the Yii MVC framework. Well over 100 hours of work. Follow the link for a description of principles that guided the design of the system.

Websites Developed

- CPTDEV [<http://www.cptdev.co.za>]
 - Ezemvelo Nature Reserve [<http://www.ezemvelo.co.za>]
 - Pinelands Tennis Club [<http://www.pinelandstennisclub.co.za>]
 - Pinelands Hockey Club [<http://www.pinelandshockey.co.za>]
 - Constantiaberg Hockey Club [<http://www.conberghockey.co.za>]
 - Pelteret family site [<http://www.pelteret.co.za>]
 - Computer Science Honours project site [<http://www.cellshop.za.net>]
 - One Photography, personal site of photographer John De Jager (site has since been shut down)
 - Western Province Hockey Union (the site since been changed)
-

Travel

- Germany
 - Switzerland
 - United Kingdom
 - United States of America — Baltimore, Washington, New York
-

Interests

- Sports: hockey, tennis
- Reading (classic, science fiction, crime novels; business and technology books and periodicals)
- Nature (particularly birds and insects)
- Graphic design (particularly typography)
- Electronic music
- Computer games

Examples of Work

These showcase not only content but also my interest in design (I designed and laid-out each of them). They are available on my CV website [<http://marc.pelteret.co.za>].

Information Systems: Honours

Information Privacy Strategies of South African Financial Services Organisations (Technical Report)
